

CENTRAL OHIO
**AEROSPACE &
TECHNOLOGY CENTER**

STEM Industry Day

**Central Ohio Aerospace & Technology Center
presents 2016 STEM Industry Day at The Works
Ohio Center for History, Art & Technology**

Saturday, March 12th companies from the Aerospace Center will have exhibits at The Works to promote STEM skills to the next generation.

- **AFMETCAL** - see sound waves and how they relate to metrology
- **Bionetics** - arrange blocks to show the importance of exact measurements
- **Boeing** - experience inertial force using a bicycle wheel and paper airplanes
- **Firefly Diagnostics**- extract DNA from an onion and learn how DNA tests help with selecting the right medication
- **Mistras** - control an ultrasonic machine to test materials
- **Samuel Strapping** - watch experts use makeup and pepto bismol to explain the special characteristics of bismuth metal
