## Site Prep Next Up at Aerospace Center

A design-build contract has been awarded to Robertson Construction Services of Heath and plans approved by the City of Heath for a building site pad. The site pad, at James Parkway and the Made in Licking County Bridge, will be finished to accept a future 20,000 sq. ft. industrial building targeted at defense-related or clean room operations.

## Spotlighting Women in STEM

The Port Authority is a proud STEM advocate. Coupled with over \$250,000 committed to STEM skills programming in Licking County, the Port Authority has been the sponsor of the "Women in STEM" monthly feature of the Business Advocate. Each month, a woman in a STEM career is featured as a role model for others. Tune in to the Facebook page each month for a link to the monthly feature.

## Future Engineers' Visit Set

The Port Authority will host The Ohio State University at Newark Engineering Learning Community for a tour of the Aerospace Center for the fourth year in a row. The future engineers, first

year students with a declared engineering major, get a hands-on experience with current engineers from the Air Force, Boeing, Bionetics, and Defense Engineering Services Group. The tour takes place on October 27.
