## Building Projects Advancing

The \$6.8 million Force Lab addition is about to enter the verticle phase of construction with concrete pad and foundations now complete. Meanwhile, interior work on the 911 Center building is underway with a visible entrance project just now advancing. The entrance gets a familiar wing affect at its front just like four other entrances on the campus.

## Supporting Women in STEM

The monthly "Business Advocate" edition of The Advocate features a profile on women in STEM fields. The Port Authority has been a proud originator and sponsor of this profile from Day One. Check out this month's look at a Licking County woman who navigated from STEM learning at The Works to STEM career.

## Coworking Space Now Open

The Port Authority recently completed improvements that converted office space to "coworking space" on the campus.

The Licking County Transportation Improvement District office is here along with transition space for three Port Authority customers underway with expansions.
