

35ac Rail-Served Site:

Central Ohio Aerospace & Technology Center South Campus

Ready-to-Build: The 35+/- acre rail served site on the South Campus of the Central Ohio Aerospace & Technology Center in Heath is truly, shovel-ready with water, sanitary sewer, roadway, rail, natural gas, and telecom infrastructure already in place. Permitting processes have already been completed as well.

People-Ready: The site is located amidst the 79|Seventy Advanced Materials Corridor, the largest manufacturing corridor in Central Ohio. The location has been a magnet for manufacturing for decades because of a stable, skilled workforce available nearby.

Hassle-Free: The City of Heath offers a “hassle-free” 100%, 15-year tax abatement on new buildings built on the COATC campus as well as a new income tax rebate incentive. Best of all: Heath has earned a well-deserved reputation for being business-friendly.
