For Sale: One Phone Booth

We don't use the word "used" to describe our latest item for sale on GovDeals.com. Instead, we focus on "years of faithful service" to describe the antique phone booth yanked out of Building 4 and for sale online. You won't be the first to bid, but you have until January 26 to be the last bidder standing on this '60's-era remnant of the Newark Air Force Station.

In The News: Boeing Workload

\$12 million in new workload is coming to Boeing's operations at the COATC. The *On Target* news team got scooped by *Business First* on this tidbit of good news but we're not shy about putting it up anyway. *On Target News* has a link to the print story and look for *Base Radio* for an audio clip soon.

Updated Directions & Lodging Info

We built a new road. We put up new signage. So we had to update our directions. While we were at it, we updated the list of area hospitality choices. We also have copies of advance quotes for two popular area hotels. Share this link with your visitors.

Through The Years Continues

As a way to commemorate last year's 10-year anniversary of the Port Authority, *On Target* combed through past editions to take an historical look back at 40 years of The Base. This year, as the 10-year anniversary of the COATC is here, *Through the Years* will continue with a look back to 1966 and every five years thereafter. Be sure to take a look monthly.
