Putting the Space in Aerospace

Ray Lugo, Director of the NASA Glenn Research Center in Cleveland, toured the Boeing facilities yesterday as part of a Hispanic Heritage month-inspired visit. Lugo had an eye opening visit. He was awoken to the strength and depth of the capabilities at the Aerospace Center having arrived with a different impression of the workload here and of the area's capabilities to support the aerospace business.

Spotlight: Clean Room Space

The Aerospace Center is home to 249,000 sq. ft. of total clean room space, a concentration that is matched by very few other places on the planet. The Horton Building has 1,000 s.f. of ISO 7 clean room space available for lease.

Soon, There Will Be Beer

The Homestead Beer Company takeover of the former technical orders building on the Aerospace Center campus is nearly complete. The true test will be the first tap which is predicted to be not far off. In the meantime, find photos from inside what will soon become Licking County's largest brewery on Facebook.
