## STEMfest Attracts Record Crowd

The Works hosted STEMfest on February 23 & 24 in Newark where a record crowd of participants saw STEM skills on display. Middle and high school students competed in engineering problem solving competitions and parents and kids witnessed hands-on STEM skill demonstrations from 26 area companies. Boeing, Bionetics, and Kaiser Aluminum were among the companies lending their expertise and time to the day.

## Community Leaders D.C. Day

With budget cuts and the Boeing navigation and guidance contract up in 2014, the need to elevate the awareness of the value and impact of the Aerospace Center has never been higher. That's why the Port Authority has teamed up with the Licking County Chamber to bring a busload of community leaders to Washington, DC for the day to tell this Licking County success story on Wednesday, March 20<sup>th</sup>.

## Projects: Plenty To Do

No "big" projects are on the drawing boards this year. No major roof, roadway, or building projects are set. However, \$1.3 million in capital projects are still slated so there's still noteworthy work ahead. Look for the next phase of Horton Building landscaping this Spring and the start of some roof work, including antennae removal, this Winter.
