VIP Visit: Boeing's Roger Krone

Boeing's President of Network Systems, Roger Krone, made a repeat visit to the Boeing facilities at the Aerospace Center in Heath. His June 4, day-long visit included kicking off Boeing's wellness campaign with a "Fun Run/Walk" that started at the Horton Building Plaza. Krone reportedly ran the recreational trail from the Aerospace Center to Heath's City Hall and back twice. More than kicking off an event, Krone sent signals to within all of Boeing Defense of the importance of the work being done at Heath and its global competitiveness.

Spotlight: Horton Building Stands Out

It was two years ago this month that the new Horton Building opened on the Aerospace Center campus. The building was built to house UTC Aerospace Systems' expanded and consolidated operations on the campus. It was also built with room to grow, including a 10,000 sq. ft. clean room bay and an up to 20,000 sq ft. Class A office area.
