## Boeing Lease Extension Signed

“This agreement will position Boeing for future work opportunities, and will enhance our commitment to the Heath community,” said Boeing Center Director Ellen Power in the release of news that Boeing had agreed to an extension of its lease with the Port Authority.

Port Authority CEO Rick Platt added, “I like the future stability that this extension brings to the skilled workforce, the community, and the region.”

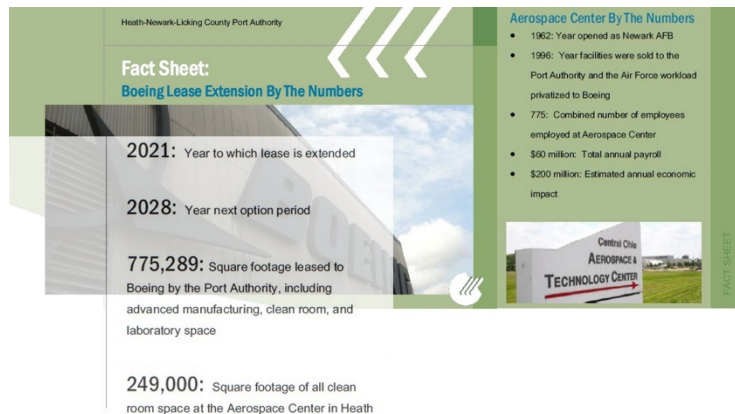

The lease extends through 2021 with no early termination clause. An option for extension through 2028 was also part of the lease.
