## 3D Printer Lab Debuts to SRO Crowd

A standing room only crowd of engineers from Boeing, Bionetics, and UTC Aerospace Systems helped debut the new 3D Printer Lab at the Horton Building Clean Room last week. The IC3D 3D printer is set up in one of the Clean Room's office suites with key card access for engineers to tinker with 3D designs. . . in 3D. The Port Authority is hopeful that this tool can advance the on-site business capabilities with greater access to this rapidly advancing technology.

## Financing Reaches \$312 Million Mark

With two more Port Authority financings on the recent agenda of the Port Authority's Board of Directors, the level of financings through the Port Authority since 2002 has now reached the \$312 million mark. Financing is one of the lesser-known tools available from the Port Authority for economic development projects in Licking County and the region.
