## Pear Trees Blooming for Season

The Port Authority's Base Campus is home to blooming pear trees which, delayed by a later-than-normal cold spell, have now bloomed. The Port Authority Facebook page is where an album of this year's photos will be posted.

## Capital Projects Bloom

A major gas pipeline relocation is underway by The Energy Cooperative on the Aerospace Center campus. The gas main serves parts of Heath and Newark. It will be relocated to the roadway rather than adjacent to buildings on the campus.

In addition, a site pad construction project is underway and two projects—911/EMA center and Force Lab addition—are out to bids.

## Virtual Tour of Clean Room Sprouts

Put on a pair of VR goggles and get a virtual tour of the Horton Building clean room available on the Aerospace Center campus thanks to a new VR tour capability. The Class 10,000 clean room is available for pharma, life sciences, micro electronics, optics, and any variety of clean room and laboratory needs.
